

Dear Brooklyn LAB Families,

We are excited to share the Summer Enrichment Materials for all rising high school students enrolled for the 2025–2026 school year. These resources are designed to keep students engaged, sharp, and prepared for success in the fall, and to help combat the "summer slide," when academic progress can regress during long breaks.

Literacy Enrichment

Each grade level has two novel options to choose from, accompanied by:

- Reflective writing prompts
- Literary analysis tasks
- A creative response project

PDF versions of assigned readings are available on our school website, and printed copies may also be picked up in person. For your convenience, we have provided Amazon links to purchase the novels for families preferring printed copies.

Math Enrichment

Students are expected to complete one math packet, aligned with the content they studied during the 2024–2025 school year.

For example, if your child took Geometry last year, they should complete the Geometry packet this summer. This ensures continuity and builds readiness for the year ahead.

Why Summer Enrichment Matters

Research consistently shows that daily practice is key to academic success:

- Students who read for at least 20 minutes per day perform in the 90th percentile on standardized tests and tend to earn above-average grades in school.
- Math proficiency improves with regular practice, as each concept builds on prior knowledge and strengthens pacing.

Our commitment is to support your child's continued growth through engaging and meaningful summer learning, setting them up for a strong start in the fall. We are dedicated to ensuring your child's success and are here to help every step of the way.

Accessing Summer Materials

- **Printed Packets:** Available for pickup at school
- **Digital Packets & Assignments:** Available via Google Classroom & School Website
- **Assigned Reading PDFs:**
- **Amazon Book Link:**

[The Skin I'm In \\$8.21](#)

[Homegoing \\$9.90](#)

[The Hate U Give \\$8.68](#)

[Born A Crime \\$10.09](#)
